Mr. Robert Miller

We, as a "Majority Rules Club," want to let you as well as Liberty Utilities / Algonquin Energy know that we are sincerely committed to helping / supporting you with the proposed project. With that being said, we as a hunting /outdoors club are looking forward to working with the management team in the future to move this project forward.

We are truly a family oriented hunting club that wants to be a good neighbor to all that will have permitted use of the mountain. Hillside Hunters believes in promoting and expanding the sports of Hunting, Fishing, Hiking, Camping, as well as all outdoor sports in a "Wildlife Management" and a "Conservation Minded Manner". This philosophy will help teach and enlighten other organizations such as Boy Scouts, Girl Scouts, etc. the benefits of "Clean Energy" managed environment – WE ("Hillside Hunters") – have the knowledge to teach the future generations – and intend to facilitate this in any way we can.

This is truly a WIN - WIN for Clean Energy, the Community, and the Wildlife. We as the Hillside Hunters Club, Inc. support clean energy that will be developed from this Wind Turbine Project and welcome all that have this same philosophy in welcoming clean energy to our Mountain, Community, Environment, and Wildlife.

RT Bliss President

Mike Lopata Vice-President
